SECTION 4: ACHIEVEMENT TESTS

Date when this section is filled: ____ / ____ / ____ (day/month/year)

Time when section started: ____ : ____

Fieldworker's name: _____ Code: ____

FIELDWORKER: Fill out 1.1 **before** you administer the tests.

1.1	<p>Does the child have a severe visual impairment? 00=No 01=Yes</p> <p>→ (If the answer is Yes, only administer EGRA-section C. Listening Comprehension and math items 7, 8 and 9)</p>	[____]

PEABODY PICTURE VOCABULARY TEST (PPVT)

FIELDWORKER: It is very important to assure adequate conditions for the assessment. You should look for a place with adequate lighting (natural or artificial), relative absence of noise and a flat surface for the child to work on. If these conditions are not available, try to look for other space or reschedule if possible.

FIELDWORKER: Use the PPVT picture easel here. Be sure to read the training items with the child and make sure the child understands what needs to be done before starting the test.

All instructions for introducing the PPVT and using the Training Items are located on the examiner's manual. Use Training Items C and D (designed for children 8 years and older).

FIELDWORKER: TRAINING ITEMS				
<i>Plate</i>	<i>Series 1</i>	<i>Series 2</i>	<i>Series 3</i>	<i>Series 4</i>
	<i>For most subjects under age 8 years</i>		<i>(If necessary)</i>	
<i>A</i>	ball (2)	dog (4)	banana (3)	Spon (1)
<i>B</i>	crying (4)	sleeping (1)	crawling (3)	walking (2)

<i>C</i>	parrot (2)	scissors (1)	flower (3)	ope (4)
<i>D</i>	mowing (3)	riding (2)	mopping (1)	computing (2)

FIELDWORKER: After you have administered the appropriate Training Items, begin testing using the Set of Test Items corresponding to the test taker's age. Once you begin a set, always administer all 12 items in that set in order, and always start with the first item in the set.

Use numerals (1-4) to record the test taker's response to each item in the blank in the "Resp" column. The "Key" column indicates the correct response (1-4). Compare the child's response with the correct response and indicate errors by drawing a line through the E in the last column as shown below:

Item	Word	Key	Resp	Error
1	Bus	(4)		E

At the end of each set, record the number of errors in the box provided.

FIELDWORKER: Please complete questions 1.2 and 1.3 **after** administering the PPVT with the child.
(These items will aid the database entry process.)

READING AND WRITING ITEMS

FIELDWORKER: It is very important to assure adequate conditions for the assessment. You should look for a place with adequate lighting (natural or artificial), relative absence of noise and a flat surface for the child to write. If these conditions are not available, try to look for other space or reschedule if possible.

FIELDWORKER: Use the literacy card here. Administer the items on reading and writing with the literacy card and fill out the items below. For writing item, hand the child the Cognitive Development and Achievement Questionnaire opened on the **Answer sheet** page. The child must write the sentence in this answer sheet.

ADAPTATION OF EARLY GRADE READING ASSESMENT (EGRA)

FIELDWORKER: It is very important to assure adequate conditions for the assessment. You should look for a place with adequate lighting (natural or artificial), relative absence of noise and a flat surface for the child to work on. If these conditions are not available, try to look for other space or reschedule if possible.

FIELDWORKER: Use the EGRA stimuli cards and your Fieldworker's manual for this part. Be sure to read the instructions to the child and make sure the child understands what needs to be done. All instructions for administering EGRA are located on your fieldworker's manual. Fill the answers and codes in the given spaces.

1.21	Test administration: Start Time (hour) (possible values: 07 to 17)	Hours: [____]
1.22	Test administration: Start Time (minutes) (possible values: 00 to 59)	Minutes: [____]

Section A. Familiar Word Identification

FIELDWORKER: Show the child card 1 of the EGRA stimuli cards. Read the instructions in your manual and practice the examples with the child. Ask the child to start reading the words and mark each incorrect word with a slash mark (/). Count self-corrections as correct. This is a **timed exercise**. When 60 seconds have gone by stop the child and **mark the final word attempted before you said "stop" with a bracket (])**. If the child cannot read any of the examples correctly, discontinue this section and go directly to section C: Listening comprehension.

------	--	----------

FIELDWORKER: Fill the next items after you finished administering the test to the child, and he/she is no longer with you.

1.24	Total words read at 60 seconds (possible values: from 1 to 60, -79=Refused to answer, -88=NA)	[____]
1.25	Total incorrect words at 60 seconds (possible values: from 0 to 60, -79=refused to answer, -88=NA)	[____]
1.26	Total correct words in 60 seconds (possible values: from 0 to 60, -79=refused to answer, -88=NA)	[____]
1.27	ONLY IF LESS THAN 60 SECONDS, number of seconds at completion (possible values: from 0 to 59, -79=refused to answer, -88=NA)	[____]

Section B. Passage reading

FIELDWORKER: Show the child card 2 of the EGRA stimuli cards. Read the instructions in your manual with the child. Ask him/her to start reading the story aloud and mark each correct word with a slash (/). Count self-corrections as correct. This is a **timed exercise**. When 60 seconds have gone by **mark the final word attempted before with a bracket ()**.

<u>Sandra and her grey cat</u>	5
My name is Sandra and I am eight years old.	15
My little brother is Charlie and he is four. We	25
like to play with our cat. Our cat is grey and fat	37
and she likes to hide behind the big furniture.	46
One day, our cat went missing. We thought	54
she was just playing hide and seek, but we	63
could not find her in her favorite places. So we	73
searched all around the house for the cat.	81
Finally, we found her under the bed, but she was	91
not alone! She had given birth to three kittens:	100
two grey and one white. When we told our parents	110
about the kittens, they told us that mom was also	120
having a baby. We are going to have a sister!	130

FIELDWORKER: If the 60 seconds have gone by and the child was not able to read the title and two first lines, mark "no" in the following question and fill out 1.29, 1.30, and 1.31 after you finished administering the test to the child, and he/she is no longer with you. Then, go on to section C: Listening comprehension. If the child was able to read mark "yes" and continue with this section.

1.32	ONLY IF LESS THAN 60 SECONDS, number of seconds to complete the paragraph (possible values: from 0 to 59, -79=refused to answer, -88=NA)	[____]

FIELDWORKER: Ask the child to read the text again, this time in silence. Tell her/him that you will ask her/him some questions about after she/he finishes. Let the child keep the card after her/him has read it. After you read each question, give the child at most 15 seconds to answer each question. Record the exact answer given by the child. Section C. Listening Comprehension

FIELDWORKER: This is **not** a timed exercise and **there is no stimuli card**. Read two times, aloud and slowly (1 one word per second) the following passage to the child and ask him/her the following questions.

A yellow little chicken was walking through a bridge. Suddenly, he slipped and fell in the river. "Help me! I can't swim!" he cried. There was a mouse passing by that saw the little chicken and came to help, but he fell in too. "What do we do now? I can't swim either" said the mouse. "I see something that is coming our way!" the chicken replied. They both climbed on the log and rowed to the shore. "We are saved!" they shouted when they finally arrived to land.

FIELDWORKER: After you read each question, give the child at most 15 seconds to answer each question. **Record the exact answer** given by the child. Do not mark it as correct or incorrect. The answer will be assessed centrally by a professional with experience in test grading.

SECTION 9: HEADS OR TAILS? RISK AVERSION AND TIME DISCOUNTING QUESTIONS

FIELDWORKER: Show Chart 5 with the bills and coins scenarios

SAY: Now we are going to play a game:

"Imagine that when playing "heads/tails" you can win either the amount in the green area for heads, or the amount in the white area for tails. Which scenario to play this game will you choose?"

Risk aversion game:

Show the child the pictures of the money choices. Tell them that you are going to flip a coin, and play a game with them. The game is not for real money, but let's imagine that it is. We want to know which choice you would make, if we play for real money.

There are six choices; each one has a green area and a white area. The amount you can win depends on your choice, and on whether the coin lands on heads, or tails. Let's start with the first choice, square 1. If the coin lands on heads, you win 5 birr, and if it lands on tails, you also get 5 birr. Now let us look at square 2. This time, if the coin lands on heads, you can win 10 birr. But, if it lands on tails, you can only win 4 birr. In square 3 you can win even more on heads, 13 birr. But! If it lands on tails you only get 3 birr. And so on, to 6, where you can win 20 birr if it lands on heads! But if it lands on tails you will get nothing.

Check that the child understands the game, by asking some questions like: "which colour do you get if the coin lands on heads?" Now point at option 3, ask the child "how much do you get if the coin lands on tails? And on heads?"

If you are sure that the child understands the game, then tell them that this time you will flip the coin for the game. Which box do they want to choose? Again, ask them to confirm- "if the coin lands on heads, how much do you get? And if it lands on tails?". Record the answer 1-6 in the box below. Flip the coin, and tell the child if they won or lost!

Young Lives  CHILD QUESTIONNAIRE (14.5 - 15.5 YEAR OLD CHILD) 2009 – 3 rd Round Survey	CHILD ID:						

FIELDWORKER: Write down the answer given by the child

9.1	Scenario chosen by the child 1. 5 birr / 5 birr 4. 16 birr / 2 birr 2. 10 birr / 4 birr 5. 19 birr / 1 birr 3. 13 birr / 3 birr 6. 20 birr / 0 birr (88 = NA)	[_ _]	(RISKAVR3)
9.2	FIELDWORKER: What sequence did you follow to explain the child each play scenario? 01 = From scenario A(1) to scenario F(6) ; 02 = From scenario F(6) to scenario A(1) (88 = NA)	[_ _]	(RISKAR32)

9.3 SAY: "Imagine that you bought a lottery ticket and you have just won. The amount you won is 100 birr. In order to get the full 100 birr you have to wait 30 days. So if you wait 30 days, you will get the 100 birr. for sure. However, if you are willing to accept less tomorrow, you can get the money now. What is the lowest amount that you are willing to accept today instead of waiting 30 days?"

IF RESPONDENT IS HESITANT, PROBE WITH QUESTIONS OF THE FORM: "would you rather accept YYYY birr tomorrow or wait for the XXXX birr in 30 days?"

IF THE RESPONDENT PREFERS (FOR EXAMPLE) 50, LOWER to 40. OTHERWISE, INCREASE to 60 AND ASK AGAIN UNTIL HE IS INDIFFERENT.

9.3.1	FIELDWORKER: Write down the amount that the child is indifferent to (in birr) (-88 = NA)	[_ _]	(AMTINDR3)

FIELDWORKER: After you have administered the appropriate Training Items, begin testing using the Sets of Test Items corresponding to the test taker's age. Once you begin a set, always administer all 12 items in that set in order, and always start with the first item in the set.

Use numerals (1-4) to record the test taker's response to each item in the blank space in the "Resp" column. The "Key" column indicates the correct response (1-4). Compare the child's response with the correct response and indicate errors by drawing a line through the E in the last column as shown below:

Item	Word	Key	Resp	Error
1	Bus	(4)		E

At the end of each set, record the number of errors in the box provided.

FIELDWORKER: Please complete questions 1.2 and 1.3 **after** administering the PPVT to the child. (These items will aid the database entry process.)

VERBAL ACHIEVEMENT TEST OLDER COHORT

FIELDWORKER: It is very important to assure adequate conditions for the assessment. You should look for a place with adequate lighting (natural or artificial), relative absence of noise and a flat surface for the child to work on. If these conditions are not available, try to look for other space or reschedule if possible.

FIELDWORKER: Give the Verbal Achievement Test Older Cohort – **cloze** to the child and read the instructions of this section with the child to make sure she/he understands the instructions (**child must answer the questions in order**). Then let the child work by herself/himself with the test under your supervision. **After 5 minutes** you should register the last item completed by the child without interrupting his/her work. Let the child continue working **until 10 minutes** have passed since the beginning of the test. Then stop the administration. Later on, and without the child present, fill in the answer table below with the exact answers provided by the child. Do not mark them as correct or incorrect. The answers will be assessed centrally by a professional with experience in test scoring.

Booklet 2. Problem Solving

FIELDWORKER: Give the Mathematics Achievement Test Older Cohort – **Booklet 2** to the child. Read the instructions with the child to make sure she/he understands the instructions (**child must answer the questions in order**). Then let the child work by himself/herself with the test under your supervision. **After 10 minutes** finish the administration. Do not forget to register the finish time. Later on, and without the child present, fill in the answer table below with the exact answers provided by the child. In some items you just have to write the response given by the child. In other items you have to write down the response given by the child and then check if it is correct or incorrect and mark accordingly. Consult your fieldworker's manual for detailed instructions.

THIS IS A CONFIDENTIAL QUESTIONNAIRE

We have already asked you many questions, but there are some things that might be important for young people like yourself which you might not want to talk about openly. This is why we would like to ask you a few questions in private.

Young people in Ethiopia, India, Peru and Vietnam are doing this questionnaire. The information you give will be used by researchers in your country and internationally to understand young people and to help to develop programmes and policies for you.

We will not write your name on this survey. The answers you give are private. Answer the questions based on what you really think or do. There is no right or wrong answer! If you do not want to answer a question, you don't need to.

If you do not understand a question or need help, just ask the fieldworker.

Do you have any questions?

Thank you very much for your help.

PEABODY PICTURE VOCABULARY TEST (PPVT) (Siblings)

Note :- This PPVT Section is only to be administered for the Siblings of the YL Child whose measurement has been taken on the Anthropometry Section.

Date when this section is filled: --/--/-- (day/month/year)
Time when section started: --:--:--
Fieldworker's name: _____ Code: --/--

FIELDWORKER: Fill out 1.1 **before** you administer the tests.

1.1	Does the child have a severe visual impairment? 00=No 01=Yes	[--/--]
	(If the answer is Yes, only administer EGRA-section C. Listening Comprehension and math items 7, 8 and 9)	

PEABODY PICTURE VOCABULARY TEST (PPVT)

FIELDWORKER: It is very important to assure adequate conditions for the assessment. You should look for a place with adequate lighting (natural or artificial), relative absence of noise and a flat surface for the child to work on. If these conditions are not available, try to look for other space or reschedule if possible.

FIELDWORKER: Use the PPVT picture easel here. Be sure to read the training items with the child and make sure the child understands what needs to be done before starting the test.

All instructions for introducing the PPVT and using the Training Items are located on the examiner's manual. Use Training Items C and D (designed for children 8 years and older).

FIELDWORKER: TRAINING ITEMS

C	parrot (2)	scissors (1)	flower (3)	ope (4)
D	mowing (3)	riding (2)	mopping (1)	computing (2)

FIELDWORKER: After you have administered the appropriate Training Items, begin testing using the Set of Test Items corresponding to the test taker's age. Once you begin a set, always administer all 12 items in that set in order, and always start with the first item in the set.

Use numerals (1-4) to record the test taker's response to each item in the blank in the 'Resp' column. The 'Key' column indicates the correct response (1-4). Compare the child's response with the correct response and

indicate errors by drawing a line through the E in the last column as shown below:

At the end of each set, record the number of errors in the box provided.

FIELDWORKER: Please complete questions 1.2 and 1.3 **after** administering the PPVT with the child. (These items will aid the database entry process.)
